Commercial Cleaning During and After Covid-19

MR.SPARKLE
COMMERCIAL CLEANING

Now, more than ever before, it is critical that buildings and business owners are partnered with commercial cleaners that are thorough every time. This pandemic has changed the world as we know it when it comes to cleaning. Building owners, property managers, and business owners have more concerns about the cleanliness of their property. You need a company that stays on top of all recommendations and standards set out by the Center for Disease Control (CDC) for cleaning and disinfecting. Cleaning now means all the high-traffic, high-touch areas like handles, knobs, switches, remotes, phones, trash cans, dispensers, not just weekly, but every day.

Mr Sparkle Commercial Cleaning has over 10 years of facilities management and cleaning experience, which means we know what we are doing. We are here to help you stay clean and maintain a sanitized space every day.

We assist in the following industries:

- **Health Care Facilities**
- **Daycare Centers**
- **Commercial Offices**
- **Gyms**
- **Banks**
- **Auto Dealers**
- **Salons**

We can tailor a program to fit your exact needs. Whether you need a space sanitized daily for children to play or for patients to visit, or you need sparkling clean floors, we have you covered 24/7. We understand that there is a difference between CLEANING, DISINFECTING and SANITIZING and it is our #1 mission to accomplish all 3 each time we are on site.

Reach out today, we can meet or talk virtually via Zoom. 516-721-6565

Please contact 516-721-6565 or info@mrsparklecc.com with questions.
We'd be glad to visit your business for a complimentary walk-through and service proposal.
